

## PROJECT BUNDLE: ESSENT TRADING INTERNATIONAL S.A.

Kyoto Mechanism:	Clean Development Mechanism
Emission Reduction:	870,373 t CO <sub>2</sub> e

The project bundle consists of 10 Projects, which generate CERs on the basis of different technologies. Three of these projects are designed for Gold Standard Registration. The Quality Certificate Gold Standard has been developed in the year 2003 by WWF and other NGOs to guarantee a very high ecological and socioeconomic standard. The Projects bundle includes Wind, Biomass and Combined Heat and Power Projects in China, India and Brasil.

From this project bundle 870,373 t CO<sub>2</sub> equivalentents were purchased for the Austrian JI/CDM Programme.
